

“SPEAK OUT” CHALLENGE!

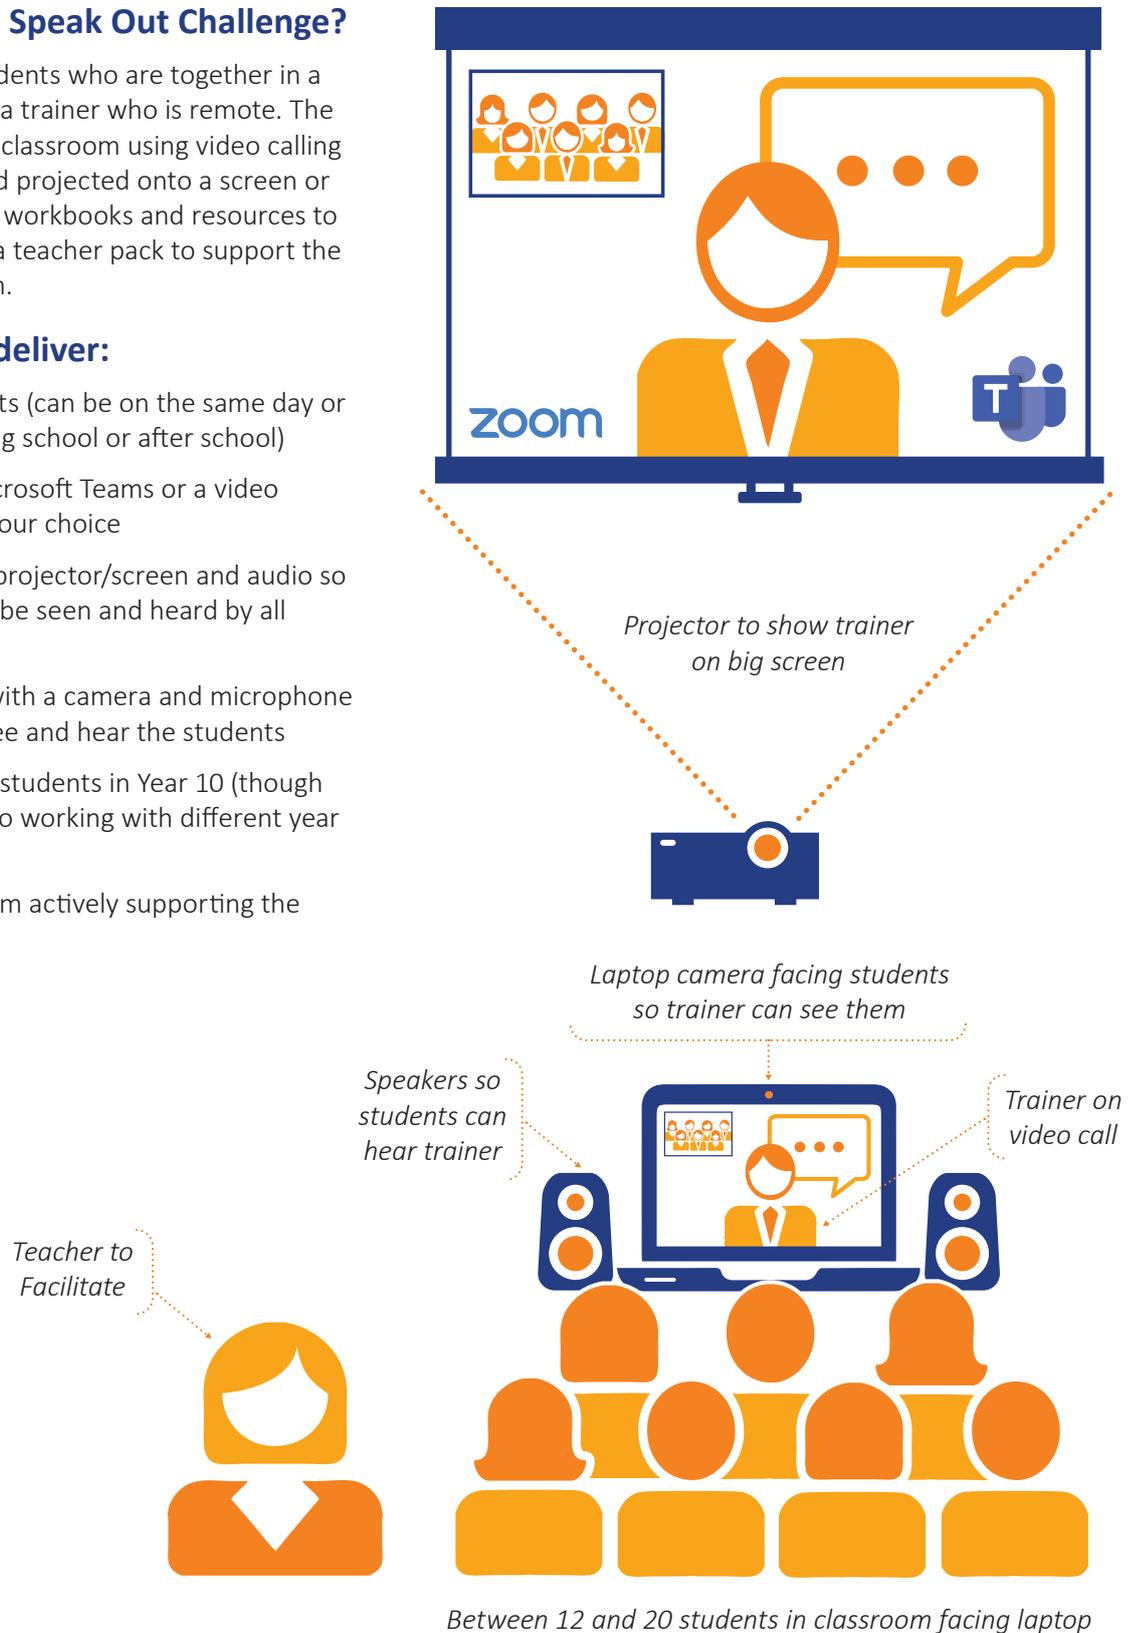

ONLINE WORKSHOP

What is the online Speak Out Challenge?

This workshop is for students who are together in a classroom, delivered by a trainer who is remote. The trainer is called into the classroom using video calling software (e.g. Zoom) and projected onto a screen or whiteboard. We post all workbooks and resources to the school and provide a teacher pack to support the teacher in the classroom.

What we need to deliver:

- ⚙️ Two 2-hour time slots (can be on the same day or different days, during school or after school)
- ⚙️ Access to Zoom/Microsoft Teams or a video calling platform of your choice
- ⚙️ A classroom with a projector/screen and audio so that the trainer can be seen and heard by all students
- ⚙️ A laptop or device with a camera and microphone so the trainer can see and hear the students
- ⚙️ Between 12 and 20 students in Year 10 (though we would be open to working with different year groups)
- ⚙️ A teacher in the room actively supporting the facilitation
